WORK-IN-PROGRESS SHOWINGS DOUBLE BILL

CHER

This solo, contemporary dance work explores the persona and characters of singer, actress, icon, and ultimate pop chameleon, *Cher*.

Cher breaks convention, challenges the system and somehow remains a constant. Choreographer, dancer and fan, Larissa McGowan, will use *Cher*'s iconic figure as a totem in order to flesh out the real possibilities of personal-political transformation.

SPEECH PATTERN

Speech Pattern is an investigation into contemporary subjectivity using performance, video and installation.

Taking as its premise that the subject and construction of self is relative to others and dependent on language, *Speech Pattern* aims to challenge normative views of gender and identity by refiguring conventions of speech, image and movement through performance and installation.
